SUMMARY

Full-stack software developer with a keen eye for aesthetics, consistency and user functionality. Eager to realize the desires of clients, paving the way for memorable user experiences.

SKILLS

Back-End: PHP, MySQL, Laravel

Front-End: JavaScript, CSS, Bootstrap, HTML5

Version Control: Git, GitHub

Miscellaneous: Adobe Photoshop, Sublime Text, Sequel Pro, Aseprite, Audio Production

EDUCATION

Codeup • June 2017 – September 2017

Completed 16-week immersive program in full-stack technologies, spending 536 hours learning curriculum and building real-world projects.

University of Texas at San Antonio • January 2016 – Present

Pursuing a B.B.A. in Accounting with a minor in Computer Science.

PROJECTS

Teachr.tech – September 2017

A full-stack web application in which instructors can follow one another, upload lesson plans, and participate in group discussion. Constructed using PHP within the Laravel framework, CSS, and JavaScript. Personal contribution involved drafting the UI/UX as well as the implementation of the Filestack API, which plays heavily into the app's core functionality.

Iron List – August 2017

Craigslist clone with a Medieval twist. Back-end performance created using PHP and MySQL; image upload functionality attainable using the Filestack API.

Simon Street Fight – July 2017

An artistic take on the classic "Simon Says" game. Built using JavaScript, jQuery and CSS. Graphics and music created in Aseprite and GarageBand, respectively.

¿El Clima? – July 2017

Weather map application that utilizes both AJAX requests and the Google Maps API to provide an accurate forecast for any specified location. Styled using Bootstrap and custom interactions created with JavaScript.

EXPERIENCE

Café Server • Barnes and Noble, Inc. • November 2016 – June 2017

Maintained and operated a multitude of commercial-grade machinery related to drink-making. Provided efficient, yet quality-driven service in a high-volume store—sometimes leading up to over 200 completed transactions on busy shifts.

Student Assistant I • University of Texas at San Antonio Disability Services • May 2016 – September 2016

Facilitated the department registration of 100+ students by answering pertinent questions, creating case files for required documentation, and compiling letters to be handed out to professors.
